James Confectioners Case Study Answers

The rations calculated for James most definitely show that the company has had a considerable increase in COG while not passing on costs to consumers. Supplies and materials are costing more and expenses are rising for operations, payroll, insurance and other uncontrollable

James Confectioners Case 6 by Luis Landaeta on Prezi

3 James Confectioners: A Case Study The costs of goods continue to rise for James. However, this has not lead to a considerable change for the price that customers pay, meaning that prices will not go up just because the cost of goods went up. The prices for raw materials and other supplies are going up, while the insurance and other operations remain mostly out of James hands.
